## SITE INFORMATION

### TOTAL AREA

44.70 acres

### SITE COVERAGE & FAR

This site is zoned low-density office/research under the Innovation Overlay Zoning District. Maximum site coverage: 75%. Maximum density 1.25 Floor Area Ratio (FAR). Maximum building height: 8 stories.

### ROAD ACCESS

With over 3 miles of highway frontage and 4 miles of river frontage, Rowen offers the ideal combination of visibility within a flexible natural setting.

Access Parcel M15 via SR-316 (University Parkway), then head south at the western corner of SR-316 to access the site.

### ZONING

The site is zoned within the Innovation Overlay Zoning District (IOZD). Please refer to Gwinnett County's [Municode](#) for more details.

### ELECTRICITY

Rowen sits at the intersection of multiple power providers including Georgia Power, Jackson EMC, and others. Projects will receive competitive proposals based on Georgia Customer Choice framework to ensure the ideal outcome for industries at Rowen.

### WATER & SEWER

Water and sewer services are onsite and provide significant capacity to support the development of Rowen over the next 30 years. Rowen's 2.5-mile Phase 1 road and infrastructure is fully complete; this includes grading, drainage, sewer, and water along both the East-West and North-South corridors. Gwinnett County and Rowen will provide specific information based on project demands: [Gwinnett County DWR Website](#)

### GAS

Ample natural gas is available onsite to support industry demands. Buford Gas serves this site. Please visit [www.cityofbuford.com](http://www.cityofbuford.com) for more information.
